The Underlined moves fail. I need
SB for Austria and France first come

No time to fit in a game, but
time to talk a bit. Most of you
don't know me, but I put out a zine that
has been out on time for 3 years(almost)

I lack in typing and grammar, and have
13 regular about 5 variants now
going which is too much, and thus
I'm forced with this zine to cut off
all press. I like press and think
it is great but alas I can't do it
with all the games I get. Also I
sell SPI games at \$6 each, Add 50¢
per game for Canada Conflict games,
I have 1776 on sale for \$8.50!

If you like you can write to me
for a list of what I have, I have
about \$600 worth of stuff in stock
and to say the least I've got to
sell it!

70 AE Note In issue #41 I forgot to underline the Austrian
 move to Rum as Russia had an equally supported attack on Rum,
 I received Mr. Wilson Orders today, to late for the game. When the
 deadline is set that is the date I must have the moves in my hands
 for I then do them that night if possible. Once typed up I forgot
 it! He had his postmarked the 27th the deadline date.
